# CUSTOMISED LOGISTICS SOLUTIONS

---

## WE OFFER

- Full coverage pallet services across all European countries
- Temperature controlled vehicles
- Satellite monitoring technology
- Sea and air freight services

## WHY CHOOSE OSE AS YOUR LOGISTICS PROVIDER?

- Unrivalled quality of service
- Cost-efficient transport
- Innovative technology solutions
- Customs clearance support

We are proud to provide responsive transportation solutions for companies operating within the oil and gas sector. From exploration and production clients to subsea contractors and equipment manufacturers, we offer flexible logistics solutions to key players within the industry.

### High safety standards are our priority

We understand that items transported for use in the oil and gas industry are complex and often hazardous. With a proven track record and long-standing reputation transporting hazardous and dangerous goods including volatile substances, you can count on us to provide you with the best in class advice and deliver your goods safely, securely, and on time.

We have fully-equipped hazardous goods transport vehicles and ADR-trained drivers who can ensure your shipments are carried safely and lawfully.

We offer specialist extras such as tamper-proof seals, 24-hour, real-time tracking and box-sided vehicles depending on your requirements.

### Offering a dedicated customs clearance service

OSE European has a wealth of experience in moving goods and specialist cargo internationally, including all associated customs requirements. Our team can raise export and import declarations, arrange T1 transit documents, ensure customs clearance processes are adhered to and finalise customs formalities at the end of the transit.

Whatever your requirements, we will always ensure that you have a single point of contact to assist you throughout the consignment's journey.

**We have a proven  
track record and long-  
standing reputation  
transporting goods for  
the oil and gas industry  
across Europe**
