WHY CHOOSE OSE AS YOUR LOGISTICS PROVIDER?

- Unrivalled quality of service
- Cost-efficient transport
- Innovative technology solutions
- Customs clearance support

OSE European is a leading provider of time-critical UK and European transport, courier services, logistics, and storage solutions.

We are driven to provide clients with a service that encompasses flexibility, approachability, and proficiency. We aim to offer a comprehensive, quality service to our clients. Whatever your transport requirement, we can carry the load.

Our history

For more than two decades, OSE European has been offering unrivalled logistic solutions to companies across the UK and Europe. However, we weren't always a major player. Our origins as a Newcastle-based scooter courier service have made way for sustained success as one of the UK's leading providers of worldwide transport solutions.

Following an ambitious expansion plan back in 2008, we began to provide competitive logistic solutions to a vast range of clients across the UK and Europe. Today, we have offices in Newcastle and Gateshead, and a depot located in Diksmuide, Belgium.

Our commitment

We are 100% committed to approaching each and every consignment with speed, accuracy, and efficiency. We are recognised worldwide for the high quality of our fleet operation and our commitment to exceeding industry standards, including best practices in safety, efficiency, and environmental protection.

Our team of professionals have years of experience across various sectors, including automotive, oil and gas, manufacturing, and projects and events. So, no matter how unique your consignment or storage requirement may be, we can help.

A supportive, highly experienced team

We have a dedicated customs clearance team on-hand to assist you and make sure you are fully prepared when looking to export and import automotive goods to and from the UK. From raising export and import declarations to liaising with European partners and arranging T1 transit documents, we can provide ongoing support throughout transit.
